Emergency Medicine Research News
February 2022

Conducting innovative clinical and translational emergency care research to advance the health of the people of Wisconsin and beyond.

- Featured News -

WACEP 2022 is just around the corner! The 30th Annual Emergency Medicine Research Forum will be held during the WACEP Symposium on April 21, 2022 in Milwaukee, WI. Abstracts must be submitted via email as a Microsoft Word document to emresearch@mcw.edu no later than Monday, February 21, 2022 at 5pm. As always, registration for the Research Forum is free. Gail D’Onofrio, MD, MS, Professor of Emergency Medicine and Epidemiology (Chronic Diseases) and Chair of the Department of Emergency Medicine at Yale School of Medicine will be giving the closing keynote presentation.

For more information regarding registration, abstract submission guidelines, and the Forum’s agenda, please see the link below. We hope to see you there!

30th Annual Emergency Medicine Research Forum
Dr. Collin Michels has received funding for a study titled: *Investigating Emergency Department Clinician Views on Naloxone Dispensing and Initiation of Medications for Opioid Use Disorder.*

This grant was submitted with Dr. Salisbury-Afshar to the UW Department of Family Medicine and Community Health Small Grants Committee. Congrats, Dr. Michels!

Dr. Josh Glazer, along with UW Biomedical Engineering students, recently created a non-invasive multimodal ocular monitoring device for use in critically ill patients. This project was supported by a DEM Pilot Research Grant.
