Dr. Manish Shah Receives AGEM Career Achievement Award

Congrats to Manish Shah MD MPH, who is the recipient of the 2021 Academic Career Achievement Award from the Academy of Geriatric Emergency Medicine (AGEM)!

This award recognizes Dr. Shah's significant career achievements in geriatric emergency medicine and contributions to improving geriatric emergency care through clinical and translational research. Dr. Shah received the honor during the Society for Academic Emergency Medicine (SAEM) 2021 Annual Meeting.

Updated UW-Madison Travel Guidance

Effective Wednesday, May 26, 2021, the travel ban on university-sponsored domestic travel – defined as travel within the contiguous United States as well as Alaska and Hawaii – is lifted. Employees, guests, graduate students, and undergraduates traveling domestically for business purposes should follow campus existing travel policy guidance. The Concur online travel booking function will be available for self-booking of domestic air, lodging, and car rental beginning May 26. Please continue to submit pre-approvals prior to arranging travel.

Kudos

-Kudos to Simon Yadgir, Shapiro research scholar, who was awarded the Best Medical
Student Geriatric EM Abstract at the Society for Academic Emergency Medicine (SAEM) 2021 Annual Meeting - Academy of Geriatric Emergency Medicine (AGEM) Subcommittee! His abstract, "Automated Screening for Cognitive Impairment Among Older Adults at ED Presentation Using EHR Data", was based on research conducted during the summer of 2020 through the Shapiro Summer Research Program with faculty mentor Brian Patterson MD MPH. Congrats, Simon!

Upcoming/Recent Presentations (DEM authors listed)

International Conference on Emergency Medicine (ICEM21), June 8-12, 2021
E. Svenson (presenter), A. Sheth, J. Schmidt, J. Svenson: "A retrospective analysis of emergency department usage in rural and semi-urban indigenous Guatemalan populations" (poster presentation)

International Ergonomics Association (IEA) 21st Triennial Congress, June 14-18, 2021
M. Salwei (presenter), B. Patterson, M. Pulia: "Usability of a Human Factors-based Clinical Decision Support (CDS) in the Emergency Department: Lessons Learned for Design and Implementation" (oral presentation)
K. Wust (presenter), B. Patterson, M. Pulia, MN. Shah: "Patients and care partners as knowledge brokers and contributors to system resilience in fragmented health care" (oral presentation)

Health Services and Care Research Program Seminar Series, June 14, 2021 (12:00pm-1:00pm)
B. Patterson: "Development of an Automated Screening and Referral Intervention to Prevent Falls Among Older Adults Presenting to the Emergency Department" (oral presentation)

-Upcoming Events-

**DEM Senior Scholarship Day**
June 10, 2021

**DEM VIP Grand Rounds**
Health Communications
June 10, 2021
11:00am - 12:00pm
Danielle McCarthy, MD, MS

**AcademyHealth ARM 2021 (virtual conference)**
June 14-17, 2021

**AAEM 2021 (St. Louis, MO/virtual conference)**
June 20-24, 2021

**Father's Day ♥**
June 20, 2021

**First Day of Summer ☀**
June 20, 2021

**DEM Graduation**
June 24, 2021
Conference Deadlines:
**IDWeek 2021 (Abstract Submission Deadline)** - June 9, 2021

Award Submission Deadlines (National, International, and Institutional):
**ACEP 2021 (Section Awards)** - July 31, 2021

**Studies Currently Enrolling in the ED**-

*New Study* - A Clinical Examination of N95 Reuse and Extended Use

The purpose of this study is to see how long N95s maintain their fit during extended use. During critical PPE shortages, such as those associated with the COVID-19 pandemic, the CDC recommends N95 extended use and limited reuse. Definitive data regarding respirator performance during reuse and extended use are lacking. To address these critical gaps in knowledge, this study aims to determine the incidence of N95 fit failure when subjected to extended use/reuse in a clinical setting. Coordinators will approach ED providers to participate, complete the baseline survey, conduct fit tests at the end of each shift until fit failure is reached or up to 5 shifts, and provide participants with $100 gift cards as a thank you. For questions, please contact [Dr. Manish Shah](#).

For more information about any of our studies, including contact information, please visit our [ED Research Coordinator (EDRC) Program Webpage](#).
