SAEM20 Virtual Meeting: May 12-15, 2020

The SAEM20 Virtual Meeting will be streamed in its entirety on SAEM social media channels. From May 12-15, live-streaming of educational content will be featured on SAEM Facebook and SAEM YouTube. Select interactive sessions and keynote addresses will require registration. Abstracts/IGNITE!/Innovation sessions will be virtually streamed on SAEM's social media accounts throughout the remainder of 2020 as received by presenters.

SAEM20 Meeting Schedule and Registration
ACEP is now accepting abstract submissions for the Research Forum held during ACEP 2020 (October 26-29 in Dallas, Texas). This is a great opportunity to present your research at a national level! The deadline for submission is May 21, 2020 at 4PM CST.

**Kudos**

-Kudos to Emily Poellinger, Research Coordinator, who was just accepted into medical school! Emily will be attending Creighton University School of Medicine in Omaha, Nebraska. Emily is looking forward to learning how to become a compassionate physician and pursuing her personal interests in social determinants of health. She is interested in Internal Medicine, but is most excited to explore where her true interest lies during medical school. Best of luck, Emily!

-Just another day at the home office? No way! Kudos to our entire DEM Research team for making every meeting an adventure. Check out some smiling faces at one of our recent virtual EMRC meetings. Dann Hekman looks especially thrilled!

- APHA 2020 - June 1, 2020
- ICMRI 2020 (Foreign Participants Travel Grants) - June 10, 2020
All study enrollment has been paused until further notice due to the ongoing COVID-19 pandemic. We have paused enrollment for the safety of our staff and providers, as well as for our patients and the community. Please know that we are looking forward to restarting enrollment once this pandemic has passed, and that we greatly appreciate being surrounded by such an innovative and caring community.
